Room 406, Information Building

Profile

- I have published over 40 papers in top-tier conferences and journals, including **three articles in IEEE TPAMI** (one as first author and two as second author), as well as eight papers in JCR-Q1 journals with impact factors exceeding 10.
- During my PhD, I co-supervised a master's paper that received the PRCV 2022 Best Poster Award, and my doctoral dissertation received the **CSIG Doctoral Dissertation Incentive Program Nomination Award** (with only 20 theses selected nationwide).
- During my postdoc, I secured over RMB 500,000 in research funding, including the highly competitive **Postdoctoral Fellowship Program (Grade B) of the China Postdoctoral Science Foundation**, which was awarded to only 12 postdocs at DLUT.
- According to Google Scholar, my work has received over **4,300 citations** with an h-index of 24, including two CVPR papers (one as first author and one as second author) that have each been cited more than 1,100 times.

Research Interests

My research focuses on visual perception methods and the design of learning strategies for adverse conditions. Currently, my work centers on developing novel learning paradigms for vision tasks based on bilevel optimization.

Education

Dalian University of Technology <i>PhD in Software Engineering</i>	China 09/2019–03/2023
Thesis: Research on Low-Light Vision Perception	Advisor: Risheng Liu
Dalian University of Technology <i>Master in Software Engineering</i>	China 09/2016–06/2019
Thesis: Optimization-driven Deep Learning for Image Enhancement	Advisor: Risheng Liu
Northeast Agricultural University <i>Bachelor in Information and Computational Science</i>	China 09/2012–06/2016
Thesis: Image Restoration based on Generalized Shrinkage Operators	Advisor: Qiufeng Wu

Awards and Honors

- 2025 **World's Top 2% Scientists** (Stanford University & Elsevier) (1/1)
- 2025 **ICML Outstanding Reviewer** (1/1)
- 2024 China Society of Image and Graphics (CSIG) Doctoral Dissertation Incentive Program Nomination Award (1/1)
- 2023 ACM Dalian Doctoral Dissertation Award (1/1)
- 2023 The Excellent Paper Award by The Chinese Journal of Image and Graphics (1/3)
- 2023 First Prize of Liaoning Natural Science Academic Achievement Award (3/5)
- 2022 PRCV Best Poster Award (2/3)

Research Projects

- 2024-2025, **Sole Chief Investigator**, *Multi-Task Joint Learning Methods for Underwater Visual Perception*, Postdoctoral Fellowship Program (Grade B) of China Postdoctoral Science Foundation, CNY 360,000.
Supported by this grant, I have published **eight papers** in top-tier conferences and journals (e.g., TPAMI, CVPR, ACM Multimedia). Notably, our CVPR 2025 work maintains state-of-the-art visual enhancement performance in foggy, underwater, and other adverse conditions while **reducing model size by more than 50%**, thereby substantially improving its practical deployability.
- 2024-2025, **Sole Chief Investigator**, *Visual Analysis and Processing under Harsh Environments*, Young Tech Star of Dalian Science and Technology Innovation Foundation, CNY 100,000.
- 2024-2025, **Sole Chief Investigator**, *Visual Perception and Learning in Adverse Conditions*, General Program of the China Postdoctoral Science Foundation, CNY 80,000.

Academic Service

- **Program Committee Member:** CVPR, ICCV, ICML, NeurIPS, ICLR, IJCAI, AAAI, ACM Multimedia, ECCV, etc.
- **Journal Reviewer:** IEEE TPAMI, IJCV, IEEE TIP, IEEE TNNLS, IEEE TMM, IEEE TCSVT, IEEE TGRS, etc.
